MAKING TURPENTINE

AN EXTENSIVE INDUSTRY IN CERTAIN SOUTHERN STATES.

How the Trees Are Tapped and the Resinous Gum Gathered—Departments and Divisions in the Work All Under the Keen Eye of the "Rider."

Dialect writers find a fruitful field among the "Tar Heels" of the Carolinas, Alabama and Georgia. In the cool depths of the turpentine woods, with the gashed trees yielding up their resinous gum, the hazy air and the pictures of "hookers," "dippers" and "scrappers," with the ever vigilant "rider" watching everything, is a phase in southern life which has long been the delight of authors and the pleasure of artists. The credulity of the implements and the still used in making turpentine and the resinous land additions to the old industry, and the gypsylike habits of the turpentine makers add to their ragged, illiterate charms.

Turpentine is the distilled gum of the pine trees of North and South Carolina, Alabama, Georgia and part of Florida. The season begins when the first spring sap rises and ends when cold weather checks the flow of the tree's blood. In January or February the "hooker," with his keen bladed ax, begins the round which ends with the season. He is the expert of the woods and knows his trees and just how much hacking they will stand. His task is to cut the "boxes" in which the thick gum of the wounded tree will collect. A box is a wide incision about six inches deep, a wedge shaped out in the tree, and he hacks from 90 to 100 boxes a day. The first boxes are cut near the roots of the tree, and they are cut as close together to the height of a man's head as can be done without killing the pine.

The hacker leaves a width of bark between each box so as to preserve the vitality of the tree. When the trees are leased to the turpentine makers, the terms of the lease limit the number of boxes to each tree, but when it is desired to work the pine to the fullest extent the gashes are carried up to a height of 20 feet or more.

After the hacker comes the man who "corners" the boxes. This "corner" is a cut in the top of the box to guide the sap into the cavity left for the gum, and the man who "works" the "crop" goes systematically from box to box, starting the sap anew with fresh incisions, working in this way 10,000 boxes during the season. The sap or gum fills the boxes with a clear, sticky, thick fluid, and this is removed by the "dipper." Scattered through the woods are barrels in which the "dipper" deposits the gum, which is then hauled to the still. About a quart of sap is taken from each box by means of the trowel shaped scoop used by the dipper, and then the hacker comes along and starts the flow afresh by wounding the tree again. The turpentine maker watches his men closely, for the Tar Heels are an easy going people and require to be urged by the "rider," who goes through the woods on horseback examining the crop, hurrying the dipper and hacker and sending the barrelled gum to the still.

The first or "virgin" sap which flows in the spring makes the best resin, and the poorest is the product of the hardened gum which is left on the sides of the boxes when the sap "turns down" in the fall. This is removed by the "scraper," who moves through the woods with his scraping tool, gathering the leavings.

The still is a large copper vat hooded with a close fitting cover in which is a funnel which in turn is connected with the "worm" of the still. This worm runs down into another vat near at hand, and in this vat the fumes or vapors of the heated gum is distilled into turpentine. Fire under the copper vat heats the gum, and the volatile parts rise to the funnel, pass into the still and are condensed by the water in the second vat into spirits of turpentine. The residuum left in the vat is the resin of commerce, which is passed through a series of strainers and slaves to the barrels, which are made on the spot. The turpentine, however, cannot be barreled so easily, for it will work through an ordinary barrel. It is placed in white pine barrels which have been coated inside with several coats of strong, hot glue until the barrel is impervious to the sap.

The trees are worked for five or six seasons, and then the turpentine maker moves to another part of the woods. He started in North Carolina, crossed over to South Carolina and is still moving toward the Gulf. Forest fires destroy the pines faster than the hacker does, for the flames sweep over large areas before they die out. Careful owners of turpentine woods have the pine straw and fallen underbrush raked away from their trees before the season begins, and collecting this material in some safe spot wait for a quiet day when no wind will cool the wet finger, and then they burn the raskings.

Negroes are common laborers of the turpentine woods, but white men are plentiful. They live in rough shanties in the woods, with the stables for the mules and horses near at hand. No work is more healthful than turpentine making, for it is all out of doors in the depths of the balmy, health giving places, free from the malaria of the swamps and from sudden changes of weather.

VIGOR OF MEN

Easily, Quickly, Permanently Restored.

Weakness, Nervousness, Debility, and all the train of evils from early errors, later excesses, the results of overwork, sickness, worry, etc. Full strength, development and long given to every organ and portion of the body. Simple, natural methods. Immediate results. Permanent cure. Failure impossible. 2,000 references. Book, explanation and proofs mailed (sealed) free.

ERIE MEDICAL CO., Buffalo, N. Y.

TAKE STEPS

In time, if you are a sufferer from that scourge of humanity known as consumption, and you can be cured. There is the evidence of hundreds of living witnesses to the fact that, in all its early stages, consumption is a curable disease. Not every case, but a large percentage of cases, and we believe, fully 90 per cent, are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" are genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses, in curative power over this fatal malady, all other medicines with which they are acquainted. "Nasty cold," liver oil and its filthy emulsions, and mixtures had been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites had also been faithfully tried in vain.

The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been skillfully reproduced in the most striking manner in the most reliable of 100 pages which will be mailed to you, on receipt of address and six cents in stamps. You can then write to those who have been cured and profit by their experience.

Address for Book: WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

MEN

Why waste time and money with doctors when I will send FREE the prescription for a new and positive remedy for a prompt and lasting cure for loss of manhood and potency. I am not a doctor, but a lawyer, and obtained this wonderful formula while in Paris, France, from the most reliable specialist in diseases of the genito-urinary organs the world ever knew. It made a new man of me and it will make a new man of you. For removing varicose veins and STRENGTHENING SMALL, weak, and nervous systems in TRUNK, MAINTAINING, and restoring the system to its normal condition. It is made in 15 to 20 days by its use that you will be astonished. Many men suffering from various ailments, or any other trouble caused by youthful errors or excesses of any kind, should send at once for the prescription. Before 18 cents in stamps. Address plainly to C. J. BRISCOE, Jan 2nd 411 Cedar Avenue, San Francisco.

FEARS OF RADICALISM.

The Magazine of London Stirred Up Over the Coming County Council Election.

The elections for the London county council, the body which governs the whole of this vast metropolis except the tiny area known as the City, will take place in March, and it is now evident that they will be fought on strictly political lines. The magazine who own the greater part of the land upon which London stands, including such places as Lord Salisbury, the Duke of Bedford and the Duke of Westminster, are so frightened by the increasingly radical, not to say socialist, character of the present council that their guesse strings, usually kept tightly tied indeed, have been unloosed, and they are prepared to spend \$800,000 to help the Tories obtain a majority.

Several noblemen even consider the emergency so great that they are willing to sacrifice themselves to the extent of becoming candidates and sitting in the council with quite common people, even with their own tradesmen, if they can find constituents to elect them. The noblest people have also thrown in their lot with the Tories, and one of them, Mr. George Edwards, manager of the Standard, has sacrificed his feelings like the noblest sufferers just referred to in opposing the division against Mr. McDougal, one of the leaders of the so called purity crusade.—London Letter.

Cold Weather Children.

A Louisville (Ky.) man who says he never drinks tells of a farmer who has produced a brood of fur bearing chickens, which sport in too water and creek freely in the midst of almost eternal snow. This was accomplished by skin grafting a selected cock and hen with rabbit skin half an inch at a time. The process was painful, but succeeded admirably. Eggs of the new breed sell rapidly at \$1.75 a dozen and are hatched out by the ordinary hens, who invariably die of fright upon perceiving the strange appearance of their offspring.

A Heavy House.

During the heavy rain and hail storm which prevailed here at midnight Sunday night a two story farmhouse, three miles east of town was blown 90 feet from its foundation. The building, having made two complete revolutions, landed on its side intact. The family, consisting of Most Mattox, his wife and three children, were in bed at the time of the accident, and all escaped injury except Mrs. Mattox, whose arm was dislocated.—Breakeridge (Mo.)

White House Silver.

A Wallingford (Conn.) silver manufacturing firm has received an order for sterling silverware to be added to the service at the White House. The members of the firm decline to give a description of the place, but say the order will be a costly one.

STEWART ON GOVERNMENT OBLIGATIONS.

Senator Stewart delivered a speech in the United States Senate on the financial question, the full text of which is printed in the *Congressional Record*. He handles the Wall street twins without gloves and exposes the gold trust combination in its true light. He denies that there is any emergency which has not been created by a disregard of law. All the trouble with the Treasury Department results from a refusal to execute the laws of Congress in good faith. He shows that on the 25th day of January, 1878, the Senate passed the following resolution:

"That all the bonds issued by the United States, issued or authorized to be issued under the said acts of Congress heretofore recited, are payable, principal and interest, at the option of the Government of the United States, in silver dollars of the coinage of the United States, containing 412½ grains each of standard silver, and that to secure to its coinage such silver coins as a legal tender in payment of said bonds, principal and interest, is not in violation of the public faith nor derogation of the rights of the public creditor. The preamble to this resolution stated the fact that the Act to strengthen the public credit approved March 18, 1869, provided and declared that the faith of the United States was pledged to the payment, in coin or its equivalent, of all interest-bearing obligations of the United States, except in cases where the law authorizing the issue of such obligations had expressly provided that the same might be paid in lawful money or other currency than gold or silver. This resolution was introduced by Senator Matthews of Ohio, who succeeded John Sherman, who was then Secretary of the Treasury under Hayes. Mr. Sherman had informed the Finance Committee of the Senate by letter that he had pledged the faith of the Government to redeem the bonds then issued in gold, notwithstanding he was the author of the bill to pay the bonds in gold or silver.

The resolution passed the Senate and House, Carlisle, McKinley, Springer, Mills and several others, who are now in with the Gold Trust, voting for it. It has never been rescinded and the bonds are payable, principal and interest, at the option of the Government, in silver dollars of the coinage of the United States, containing 412½ grains each of standard silver.

Senator Stewart says there is plenty of silver coin in the U. S. Treasury. If there is not it is the plain duty of the Secretary of the Treasury to coin the bullion. The third section of the Act of 1890 declares it to be his special duty to coin sufficient of the silver bullion purchased under the Act to provide for the notes issued thereunder. The Executive has decreed that gold alone shall be used, thus setting himself above Congress, and refusing to obey the law and pay silver as well as gold. He has done this for the purpose of forcing the gold standard upon us with all its calamities.

Senator Stewart declared that the only way you can maintain the gold standard is to put down prices in this country lower than in any other, so that the people of other countries will prefer our commodities to our gold. As we compete in the sale of our commodities with India, Russia and the Argentine Republic wages must be lower here than in those countries if we are to carry this accumulating debt and pay the interest on it in gold from the sale of commodities. In view of the inevitable destruction, the ruin which must come, the distress which now afflicts the whole country, the millions out of employment, the prostration of our industries, the President insists that he will not obey the law, that he will make a discrimination between gold and silver.

Senator Stewart protests against this policy, against the policy of buying gold under authority to buy coin. He makes the goldbugs of both parties, who are sustaining this policy, over the coals, and is a thorn in their side in Nevada as well as in New York and in the United States Senate. Some of the people, however, upon one pretext or another, are disposed to find fault with the Senator and make light of his efforts to expose the rascality and duplicity of the Gold Trust and its organs, aiders and abettors throughout the country.

A NEW TAX BILL.

Assemblyman Flannigan has introduced a bill to provide revenue for the support of the State Government and to repeal certain acts relating thereto. It extends the time for assessing livestock by giving the Assessor authority to make the assessment on any calendar day of the year, thus lessening the opportunity for owners of transient stock, such as cattle and sheep, to evade taxation. It also provides that live stock driven here from other States shall be liable to the same tax as stock which have wintered in Nevada, notwithstanding the tax on such stock may have been paid in other States. Live stock driven here for commercial purposes are, however, under the provisions of the bill, exempt from this rule.

It has been the custom for California sheep owners to drive their flocks into Nevada and summer them here. The taxes on those flocks were paid, or claimed to have been paid, in California before they were driven here. They fatten on the grasses, and damage the roads in Nevada, yet do not contribute a cent to support the State or county governments. As the object of the bill is to make them do so there should not be any objection to its passage.

REMOVAL OF THE CAPITAL.

Senator Skaggs of Elko has proposed an amendment to the Constitution to remove the State Capital to any town or city that will comply with the conditions imposed by the amendment. The JOURNAL is authorized by prominent citizens of Reno, men who have the money and whose word is good, to state that the required \$100,000 will be deposited with the State Treasurer, and in addition that they will donate the State a block of land suitable for a Capitol building and grounds.

Gentlemen of the Legislature, adopt Mr. Skaggs' amendment, submit the question to the people and the Capital will be removed to the metropolis of Nevada at the earliest possible moment.

NORTHERN ELKO.

The Weather—Quartz and Placer Mines—General Notes.

ELKO, Nev., February 12, 1895. EDITOR JOURNAL:—The last ten days of January were exceedingly cold and the weather very disagreeable, snowing more or less. There is now deposited upon the ground in the valleys from 16 to 20 inches of snow and upon the mountain ranges from six to eight feet. During this time the thermometer has fallen from 20 to 35 degrees on two occasions. With the advent of February the black, gloomy clouds that hung over Eastern Nevada rolled backward and Old Sol put in an appearance, pouring forth his soft and gentle rays, thereby driving old Arctic winter to the lofty peaks of the snow-capped neighboring ranges, there to hold high carnival, much to the delight of the denizens of the valleys.

MINES.

In my last letter I omitted to mention the Badger lode or deposit at the north end of Lone Mountain, upon which a 40-foot incline has been excavated, developing a strong ledge or body of ore from top to bottom, yielding \$25 per ton in gold, \$16 in silver and 76 per cent of lead. The width of the ledge has not as yet been ascertained as pay ore is found on all sides of the incline. This valuable property belongs to H. M. Reed & Son and is situated 28 miles north of Elko and 24 miles north of Tuscarora. Mr. Reed expects to put a large force of men upon this mine this Spring. The general trend or strike of this ore body seems to be north and south, being in a soft formation of porphyry and limestone. There is a superabundance of water in the vicinity.

ISLAND MOUNTAIN.

Is another placer mining district and is situated about 75 miles due north of Elko. There has been obtained placer gold from Hope Gulch in this district by the sluice box process of the value of \$300,000. Gold is found in all the hills of this section for miles around, but the scarcity of water has been a drawback to this district, there being only a plenty of water during the months of March, April, May and June. The mineral formation of this placer district is granite and porphyry. Besides the placer gold there are a number of gold prospects, but the most important are the group of mines owned by J. L. French, recently discovered. Mr. French is a pioneer of this district since 1874, during which time he has been prospecting more or less for quartz, and discovered last fall in Patterson gulch, five valuable ledges running parallel north and south and being over from six to nine feet apart. Old and experienced miners believe that all of these ledges at the depth of 80 to 100 feet will be consolidated into one massive ore body. From samples of ore taken at random from the ledges of this group a satisfactory result is obtained of \$25 per ton by mill process. One of the ledges of this group has given assays as high as \$300 per ton. Mr. French contemplates the erection of a mill during the coming summer and good results are anticipated.

BRUNO DISTRICT.

Is one of the most extensive as well as the richest placer mining district in Eastern Nevada, and is situated in the northeast part of Elko county, about 55 miles from the Central Pacific railroad, its many rich gulches that make down from the Brunseau range has yielded annually large sums of placer gold. This district was first discovered and worked as early as the summer of 1871. The first gold taken out was by Watty Waters, "Old Allegheny," Mr. Gallagher and other old pioneers of that period. The extent of this gold field is probably not less than eight miles square, extending west and south along the base of the Brunseau range, 76 gulch being the central point of attraction. This gulch is five miles long and has pay gravel from 80 to 100 feet wide the entire length. There are also a number of other gulches in this vicinity where rich placers are found. There has been, during the past summer, a large number of gold prospects discovered and opened out, many of which give satisfactory results, averaging in width from 10 inches to four and five feet. Early spring will find in this district a large number of hopeful prospects. Timber and water are superabundant for all purposes of mining—A number of Utah capitalists of Park City are heavily interested in this district. Already a large number of reservoirs and a full system of main and supply ditches have been dug preparatory to a vigorous mining campaign the coming spring and summer. Several of the old pioneers have sold or bonded their claims to Eastern parties. The Rev. Mr. McCallough, who is one of Brunseau's successful miners, has bonded his group of placer and gold quartz mines very satisfactorily. He is a very thorough and intelligent miner and is well informed as

to the output of the district. If you want, however, to learn all of the particulars of the early days of this rich district you must interview Watty Waters who is an agreeable and accommodating gentleman of the old school of miners, and like his old partner, Mr. Gallagher, ever ready to bid you welcome to his cabin.

THE OCTOPUS GOLD MINING AND MILLING COMPANY.

Of this district has, during the past fall, finished the erection of a ten stamp mill under the superintendency of Thomas M. Charles, late of Park City, Utah. The mill in question will be propelled by water power having ten stamps with a crushing capacity of twenty tons. The mill is situated between Badger and Copper creek and is most substantially built in every way, having all of the latest conveniences and appliances so as to be able to work all of the ores by the most approved methods. It is believed by Mr. Charles from the several experimental tests made by him, that the ores will pay by mill process from \$25 to \$30 per ton. The ore, as well as the bed rock, is soft and decomposed and readily yields up the gold by the usual treatment. The cost of erection of this snug, compact mill is only some \$15,000, and other necessary buildings, including boarding house and office, about \$3,000 more. There has been expended on roads from the mill to some of their mines about \$1,000. Mr. Charles, who is part owner, expects to be able to start up the mines and mill in May, which will afford employment to a few good miners and mill men.

MATTERS IN GENERAL.

There is considerable complaint among our citizens and taxpayers about what is known as the coyote scalp law, as the provisions of the law do not fully protect the interests of the county. Very few advocate the repeal of the law, but all agree that the act should be amended in some way or other so as to put a stop to the annual drain of the finances of the county, which is from \$1,700 to \$1,800. Our County Commissioners for a long time believed that they had been paying for scalps taken from Idaho and Utah. We hope our present Legislature will grapple with this important financial question, so as to relieve us of the burden of paying for scalps taken from neighboring States. I think if the Justice of the Peace was authorized to require all persons who presented scalps to swear that he or they killed the coyotes within the limits of Elko county. This or some other more effective mode should be adopted so as to enable our County Commissioners to stop this coyote scalp drain.

There seems to be a general desire among our citizens for some radical change in our present election laws so as to remove many of the defects that developed during the last election and in the count and returns thereafter. I find a great many taxpayers favorable to the calling of a Constitutional Convention to revise the entire instrument. It is believed this can be done in thirty days, the number of delegates not exceeding the number of members of the present Legislature. The cost of a convention should not exceed a few thousand dollars, members serving for their expenses, say \$1 per day with mileage one way, or their actual transportation which does not exceed five cents per mile.

Yours,

JOHN S. MAYBUGH.

PATRIOTIC EXERCISES.

At the High School on the 21st. Patriotic exercises will be held by the Second Division of the Alpha Literary Society at the High School rooms, on Thursday, February 21, at 1 p. m., in honor of the "Father of Our Country." All should attend and thus encourage patriotism among our young people.

Dr. Hazard the Eminent Veterinary Surgeon is Here.

Dr. A. E. Hazard, the well-known veterinary surgeon of San Francisco, is paying a professional visit to Reno and district. The doctor is a graduate of the Royal College of Veterinary Surgeons, London, England. He has been in San Francisco for eight years. He was appointed one of the three veterinary surgeons at the last great horse show held in that city. He has had over twenty years practical experience. Special attention given to chronic lameness and all surgical operations. Diseases of all domestic animals treated on scientific principles. Terms very reasonable. The doctor can be found at Graves' Livery Stables, or at the Palace Hotel, Reno. Calls to the country promptly attended to. Advice by mail \$2. fe20d6twl.

Effect of Inter-Marriage.

A letter to the St. Louis Globe-Democrat from Martha's Vineyard, Mass., says that of 146 persons in that isolated community, thirty-six were born deaf and dumb. A prejudice against what the people of the village would term "foreign marriage" is doubtless the cause of the infirmity. Many of those thus afflicted are feeble-minded.

KNOWLEDGE.

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adopting the world's best products, attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs. Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, a refreshing and truly beneficial property of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance. Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

A Reno Inventor to the Front.

R. G. Colombo, foreman for Foley, Russell & Co., has been studying for some time on a scheme, so that every farmer will be enabled to shoe his own horses or mules, and also remove the shoes while the animals are resting. He has solved the problem by inventing a shoe that can be fitted in a few minutes and removed from the animal's feet during the night, or the heel and toe calks can be removed for Winter or Summer use. The shoe, as far as shape is concerned, is like an ordinary horse shoe, except that it has three corrugated prongs rising from the edge of the shoe about one inch high and three-quarters of an inch in width. These prongs can be sprung in on the level of the hoof into places previously prepared on the hoof of the animal. At the toe of the shoe is a rivet that acts as a hinge and allows the shoe to be opened or spread and removed or fitted at will. At the heel of the shoe a bolt or long screw is adjusted with a screwdriver which clamps it in such a manner as to make it impossible to give in any particular. It is strongly made and can be manufactured at a low figure. It affords great relief to the animal and any one with a little trouble can adjust it. Mr. Colombo has applied for a patent and those competent to judge believe that although the device is comparatively simple in its details, he has made a wonderful discovery.

The Lynip-Buckner Contest.

The Silver State of Monday says: District Court, Judge Mack presiding, is in session to-day. This morning's session was devoted to the Lynip-Buckner contest for District Attorney, D. S. Truman appearing as counsel for the former and Judge Hayden for the latter. A number of witnesses were examined, the bone of contention seeming to be whether or not the Humboldt ballots could have been or were tampered with at any time subsequent to the official canvass.

Senator Jones' Coinage Bill Taken Up.

WASHINGTON, February 19.—The year and days on Jones' motion to take up the Silver bill were called to-day, and it was carried—70 to 27.

After the Silver bill had been taken up Jones of Arkansas tried to get a time fixed for a vote, but Senators objected. Jones gave notice that he would ask the Senate to sit to-night until a vote was reached.

Blackburn reported from the Conference Committee on Diplomatic and Consular bill that an agreement had been reached on all except \$500,000 for the beginning of the Hawaiian cable. The report was confirmed and further conference on the Hawaiian cable item was ordered. Vilas then began his speech on silver.

BREVITIES.

Colonel Jo. Marzen is in from Lovelocks.

J. G. Taylor of Rye Patch is here on his way to Carson.

J. H. Thies of Lovelocks arrived last evening on his way to Carson.

A splendid line of crockery and glassware at Lange & Schmitt's.

James Doherty, the cattle man, is in town shaking hands with old friends.

Boots & Pawning, advertise sidewalk lumber cheap. See advertisement.

F. E. Humphrey and George Lingo each shipped four cars of cattle west yesterday.

Five acres of land, part orchard and garden, for rent on easy terms. See advertisement.

Hot clam juice at Thyes', also all the latest fads in fancy drinks. Family trade a specialty.

Thirty cases of butter from Douglas county and five from Reno were shipped west last night.

The cistern at the junction of West and Second streets needs looking after. There is a bad hole there and a serious accident might occur.

Wm. Johnson at the Arcade Saloon keeps nothing but straight goods. His hot drinks are a specialty.

Dr. P. T. Phillips was called to Amodeo on professional business and left on yesterday morning's N-C-O.

Go to Fredrick's jewelry store for the latest vocal and instrumental music at 10 cents per copy.

B. Goldsmith, representing the Pacific Butcher's Supply Co., was a passenger for San Francisco last night.

Justice Linn had a dull day yesterday, nothing happening in his court of enough note to make a respectable item.

Dr. Buzard, a noted veterinary surgeon, has arrived in Reno and is prepared to give advice regarding stock or attend to any calls.

McLain's patent swing rockers at E. C. Sessions & Co.'s new store in the Improvement building. The only perfect chairs made.

Read the ad. headed "Free Course by Mail With the Capital City Commercial College." It is a fine offer. Apply for it.

The District Court was occupied all day yesterday in hearing the case of Douglas vs. Bailey, which was submitted and taken under advisement.

The Real Estate and Investment Company have decided to erect a fine building on their lot, corner Second and Sierra streets. The building will cost from \$15,000 to \$20,000.

F. J. Burton, foreman of the Bliss ranch in Humboldt county, informs the *Silver State* that the river at his place is frozen almost solid. The ice is nearly two feet thick and holes are cut in it to water stock.

L. L. Rickard, just in from Disaster Peak, near the Oregon line, informs the *Silver State* that considerable work is being carried on in the mines in that section. The ore is low grade, from \$12 to \$20 per ton in gold.

A dance will be given at Clough & Crosby's hall on the night of February 22d, Washington's Birthday, by Charles Nash and Miss Gertrude Hollingsworth. The best of music will be furnished, and a good time is assured.

Lovelock farmers are curing enough bacon for home consumption and will shortly have a flouring mill in operation. This will keep considerable money, which heretofore has been sent away to purchase flour and bacon, at home.

The editor of the *JOURNAL* acknowledges the receipt of a complimentary ticket to the Legislative and Inaugural Ball to be given at Carson, February 25th, in honor of the Silver party and the inauguration of Governor John E. Jones.

About \$7,750,000 in gold is now on the way from Europe to the United States. In a few months the golden current will be running the other way to pay interest on bonds. Tourists, too, take about \$100,000,000 a year to Europe.

The Real Estate and Investment Company are hauling lumber to build a sidewalk 1-0 feet long on Second street along the old Hymers' stable lot, which was recently purchased by the company. It is also arranging for a sidewalk 100 feet long on Sierra street along their lot, corner of Second and Sierra streets.

The Reilly Funding bill, is believed, will be reported back to the House today, but it is the opinion of many members that nothing more will be done with it at this session. No sane man, they say, could expect it to pass through the present session of Congress. It brought up again it will meet a worse defeat than before.

The Jones bill providing for the unlimited coinage of silver is now before the United States Senate. A motion to take a vote on the bill was objected to, the gold men being determined to prevent a vote being taken. The bill provides for the unlimited coinage of silver, but gives the Government the privilege of difference between the market price and coinage value of silver.

THE STATE LEGISLATURE.

SEVENTEENTH SESSION.

Thirtieth Day's Proceedings.

CARSON, February 19, 1896.

Met at 11 A. M., Lieutenant-Governor Sadler presiding.

Roll call, prayer by the Chaplain and reading of the Journal as usual.

INTRODUCTION OF BILLS.

By Summerfield, S. B. No. 31—Amendatory of Act to limit the power of certain county officers; none but the County Commissioners allowed to make contracts for supplies, etc. Judiciary.

By Summerfield, S. B. No. 32—To pay the deficiency in the State Agricultural Society for the years 1893-94 \$3,640. Ways and Means.

By Gignoux, S. B. No. 33—To regulate appeals to the Supreme Court. Judiciary.

By Martin, S. B. No. 34—Amendatory of Act to prohibit certain live stock from running at large on the streets, highways or limits of towns or cities. Agriculture.

By Maute, S. B. No. 35—Amendatory of Act for the maintenance and supervision of public schools. Judiciary.

MOTIONS AND RESOLUTIONS.

By Patchen, S. C. R. No. 11—Relative to a Constitutional Convention to revise the State Constitution, to be voted upon at the next general election. Judiciary.

By Russell, S. J. R.—Relative to the foreign intermeddling by goldbug railroad, mining and mining corporations of San Francisco with the politics and legislation of the State of Nevada. Judiciary.

WOMAN SUFFRAGE AGAIN.

Summerfield called for a reconsideration of the vote by which S. C. R. No. 9, Woman suffrage, passed yesterday.

Comins hoped the motion would not prevail. It had been very thoroughly discussed by every member of the Senate for the last two or three days and yesterday the resolution passed by nearly a unanimous vote and did not believe any one had changed his mind since then. It was a move in the right direction and he did not believe in going back on it.

Summerfield believed with Brother Jasper that "the world do move," but he also believed that the votes of Senators yesterday were given under duress, so to speak, influenced by the presence of the numerous ladies present so that they were afraid to vote any other way. He owned to having felt so himself, but having recovered from their trepidation, no doubt others besides himself had concluded that such a change in the constitution should not take place without due consideration. Members were also absent yesterday who were present to-day.

The roll call on motion to reconsider was lost—yeas 4, nays 10, absent, Wise.

By McDonald, A. C. R. No. 7—Relative to the interests of the silver producing States and Territories. No Congressional Representative to be elected who is not a friend to silver. Passed unanimously.

By Martin, A. B. No. 27—Authorizing the Douglas County Commissioners to issue bonds for road purposes, not to exceed \$10,000, and to provide for the redemption of the same. Passed unanimously.

By Maute, S. B. No. 36—Amendatory of Act concerning juries. Judiciary.

STATE CAPITOL REMOVAL.

By Skaggs, S. C. R. No. 12—Relative to amending the State constitution. Referred to the Judiciary Committee.

Following is the text of the resolution: "The seat of government shall be at Carson City. Provided, however, that when ever any town or city in the State of Nevada desiring the location of said seat of government within its limits, shall deposit in the State treasury the sum of \$100,000, the said sum to be held by the State Treasurer as a guaranty to the State of Nevada, for the purpose of erecting suitable Capitol buildings and the purchase of necessary grounds for building purposes, the Legislature shall change the location of the seat of government to said town or city, and provide by law for the purchase and erection of such necessary grounds and Capitol buildings and the transfer of the public archives and property belonging to the State.

At 12 M. the Senate took a recess till 2 P. M.

AFTERNOON SESSION.

Gignoux, for Committee on State Prison, reported that the Committee had paid a visit to the State Prison, gone through the institution carefully and observantly, and now presented a detailed list of its requirements. Needs repairs to roof, floor, and in various departments. A repair fund of \$2,500 is recommended. Ways and Means.

By Richards, S. B. No. 37—To define the duties and compensations of the Lieutenant-Governor when acting ex-officio in other State official capacities. Adjutant-General, State Librarian, etc. Judiciary.

SECOND READING.

By Comins, S. B. No. 26—Concerning District Courts and Judges thereof. Substitute adopted.

Substitute for S. B. No. 25—To refund moneys advanced in subscriptions and donations from parties in Nevada toward the Nevada Exhibit at the Midwinter Fair. Laid on the table.

Royal Baking Powder

Highest of all in Leavening Power.—Latest U. S. Gov't Report

ABSOLUTELY PURE

By McCone, Substitute for A. B. No. 18—Amendatory of Act for preservation of beaver, otter and other wild game. Making the close season from Jan. 1 to Aug. 1 instead of Sept. 1, a month earlier. A petition from citizens of Washoe county was presented in support of the amendment. Lost by a vote of 7 yeas to 5 nays; 2 absent.

Message from the Governor inviting the Senate to a joint meeting of both Houses to-morrow evening in the Assembly Chamber to consider and confer upon the proposition to give Nevada 1,000,000 acres of public lands in aid of irrigation. Invitation accepted.

Also stating his approval of the Nicaragua Canal bill and S. B. No. 4—Uniform examinations for teachers certificates.

Communication and descriptive pamphlet received from R. K. Coney, Consul-General of Mexico at San Francisco, inviting State of Nevada to contribute to and participate in the grand Exposition of Industries and Fine Arts to take place at the City of Mexico in 1898, being the first World's Fair held in that country. Referred to Committee on Federal Relations.

At 3:20 Senate adjourned.

ASSEMBLY.

Met at 11 A. M., Speaker Allen presiding.

Roll call, prayer by the Chaplain and reading of the Journal as usual.

Noel, for Judiciary Committee, made the following report:

Substitute for A. B. No. 5—Relative to Justices of the Peace. Favorably. The original bill was reported unfavorably.

A. B. No. 71—Providing for State revenue. Favorably.

A. B. No. 75—Providing for official stenographer for District Courts. Unfavorably.

S. B. No. 11—Relative to estates of deceased persons. Favorably.

McNaughton, for Committee on Education, reported unfavorably on A. B. No. 47—Issuance of Commissioners to State University cadets.

Hogan, for Committee on Agriculture, reported favorably on A. B. No. 67, making State and county taxes payable in semi-annual installments.

On motion of Corryell the Speaker appointed Corryell and Francis as additional members to the Committee on Engraving.

S. J. R. No. 12, amending State Constitution, was referred to the Judiciary Committee.

INTRODUCTION OF BILLS.

By Pitt, A. B. No. 83—To protect public ranges from wild horses. Agriculture.

By Russell, A. B. No. 84, accompanied by petition—Relief of Thomas Gibley. Appropriates \$250 for money advanced by Gibley for building State University at Elko in 1873. Elko delegation.

By Pitt, A. B. No. 85—Authorizing Humboldt county Commissioners to issue bonds to pay funded debt. Humboldt delegation.

By Conbole, A. B. No. 86—Maintenance and supervision of public schools. Prescribes what branches shall be taught, text books used, etc. Education.

By Noel, A. B. No. 87—Uniform examination for teachers. Prescribes what branches they shall be examined in, etc. Education.

By Noel, A. B. No. 88—Proceedings in civil cases. Exempts \$50 per month from wages when necessary for support of defendant or family. Judiciary.

By McNaughton, A. B. No. 47—Authorizing Elko County Commissioners to issue bonds on court-house indebtedness. Emerald delegation.

GENERAL FILE.

By Summerfield, S. B. No. 11—To repeal Act relative to deceased persons. Passed.

By Stanley, A. B. No. 5—School District No. 10, Washoe county, bonds. Ordered re-engrossed.

A. B. No. 80—Relative to attorneys and counsellors at law. Ordered engrossed.

A. B. No. 67—Allowing State and county taxes to be paid in semi-annual installments. After considerable discussion by Pitt, Brookline, Corryell, Allen of Eureka and Hogan it was made special order for 2 P. M.

At 12:15 recess taken till 2 P. M.

AFTERNOON SESSION.

By Conbole, A. B. No. 76—Placed at bottom of the file.

By Noel, A. B. No. 71—Ordered engrossed.

A. B. No. 47—Authorizing issuance of commissions to State University cadets. Laid on the table.

By Court, A. B. No. 72—Regulating compensations of certain Nye county officers. Ordered engrossed.

Substitute for S. B. No. 5—Concerning fees of Justices of the Peace. Passed—Yeas, 24.

By Flannigan, substitute for A. B. No. 60—Fixing the salaries of certain Washoe county officers. Passed unanimously.

By Gorman, A. B. No. 92—Maintenance of public schools. Ordered re-engrossed.

By Denton, A. B. No. 53—To encourage agriculture. Provides that farmers may sell beef and all other farm produce of their own raising without paying license.

McNaughton offered an amendment, making the Act apply only to citizens of this State.

Denton opposed the amendment. In Lincoln county such produce was mostly brought from Utah, and if they had to pay license the merchant or middle man would make the money and the consumer would have to pay it. Allen of Eureka thought the gentleman from Lincoln was making a play for the Mormon vote. He believed that our home producers should be protected, and was therefore in favor of the amendment.

Corryell thought if Utah ranchers wanted to supply Nevada with produce they should come to Nevada to raise it. Gorman and McDonald spoke against it.

The amendment was finally adopted and the bill ordered engrossed.

By Noel, A. B. No. 51—Relief of Dunn, Flannery and Hardy for expenses in the Hardin-Francis contest. Passed—29 yeas, 1 no.

By Conbole, A. B. No. 75—Official stenographers for the District Courts. Quite a lively discussion occurred as to the reference or disposal of this bill, none of the various committees apparently desiring to take it in charge.

It was finally agreed to consider it engrossed and place it upon its final passage as the best means of killing it. Then followed a lengthy discussion of the merits of the bill, which was then found to be a most commendable measure in the opinion of at least twenty-three members who voted in the affirmative. And so the bill finally passed after nearly an hour's discussion as to how to get it out of the way, and after the introducer himself had moved for its indefinite postponement.

A. B. No. 76—To repeal Act authorizing County Commissioners to publish bills allowed. Indefinitely postponed.

Message from the Governor announcing his approval of A. B. No. 45, relative to consolidation of certain Churchill county officers.

At 3:15 Assembly adjourned.

THE FIRE BELL.

Sam Armarko's Elegant Saloon, Sol Levy's Dry Goods Store and the Poor Man's Clothing Store Badly Damaged by Fire and Water.

At about 2:30 this morning the clanging of the fire bells startled the town, followed by the screeching of the whistles on a locomotive standing at the head of Virginia street. Upon investigation the fire was discovered in Sam Armarko's elegant upstairs saloon. The whole interior seemed to be on fire and it looked as if the building was doomed.

An explosion occurred and in an instant all was darkness, but in a short time the flames lighted up again and the fire boys, who had arrived on the scene began work in earnest. A stream was turned in the front windows and the boys fought their way in until the blaze was under control, but nevertheless they had a tedious fight, as fire had gotten between the ceiling and roof making it difficult to get at. The fire had also worked its way through the floor and burned quite a large hole through the ceiling of Sol Levy's store.

The stock and fixtures in Armarko's saloon are almost a total loss, and it is doubly severe on him as he carried no insurance. The stocks of Ash Brothers, and Sol Levy are seriously damaged by smoke and water, both stores being fearfully flooded. The Ash Bros. carry \$7,500 insurance and Sol Levy \$10,000 on their stocks.

The saloon closed at the usual hour, the night man leaving about 1 o'clock; the lights were all extinguished and things put in order. About fifteen or twenty minutes before the alarm Mr. Nash passed up the street on his rounds and there were no indications of a fire. A. E. Donnelly in passing the building later on noticed a great quantity of smoke in the neighborhood and upon making an investigation found where it came from. He ran to the engine house and gave the alarm in time to check what would likely have proven a disastrous fire.

Mr. Armarko can give no theory as to how the blaze originated. It seemed to start in a closet in the northeastern part of the room, where the men employed about the place hung their coats and hats. He says that packages of matches were also kept there, but these were kept in a box. The stairway in the corner of the room was entirely destroyed, and the ceiling burned badly.

The building belongs to a Mrs. Byington of San Francisco, the Nevada Bank being her agent.

Awarded Highest Honors—World's Fair.

DR. PRICE'S

CREAM BAKING POWDER

MOST PERFECT MADE.

A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant. 35 YEARS THE STANDARD.

Electric Bitters. This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. Good Reason for Faith

Cured of Scrofula by Hood's

Scrofula permeates humanity. It is thoroughly infused into the blood. Scarcely a man is free from it, in one form or another. Hood's Scrofula cure scrofula promptly, surely, permanently. Thousands of people say so.

For instance, read this:

"I am justified in thinking Hood's Scrofula is a splendid medicine by own experience with it. I was a great sufferer from scrofula, having it in my ears and on my head, sometimes like large boils, discharging all the time. My husband insisted that I take Hood's Scrofula. Of the first bottle

My Appetite Improved, and I felt somewhat better. So I bought another bottle, and by the time it was half gone the scrofula had entirely disappeared. I am

Hood's Scrofula Cures

now entirely free from scrofula and was never in better health. Hood's Scrofula also cured me of a terrible pain in my side, caused by neuritis of the heart." Mrs. A. C. Medlock, Orleans, Indiana.

Hood's Pills cure liver ills, constipation, biliousness, jaundice, sick headache, indigestion.

FREE COURSE BY MAIL

WITH THE CAPITAL CITY COMMERCIAL COLLEGE

—TO ADVERTISE—

OUR COLLEGE

We will give a thorough course of instruction in Double and Single Entry Book-keeping and Commercial Arithmetic by mail FREE OF CHARGE to a limited number of persons. This course will be completed in forty lessons. No charge for Diplomas.

Our method of instruction by mail is far superior to that of any other school in the West. Hundreds of testimonials of our patrons, testifying to this fact, are on file in our office. The phenomenal success attained in this department prompted us to widely advertise our work, and to make it a special feature of our school.

The Instructions and Exercises

are conducted by mail practically in the same manner as those in our College Rooms which makes them equal with personal instructions, and lead the student to a full and clear understanding of the science of accounts.

Our Mail Department

is under the personal supervision of an able instructor, under whose guidance the highest degree of competency may be attained by correspondence.

We offer the above-named course free to introduce our work in your community. Avail yourself of this offer at once, and show the superiority of our work to your friends. Address:

Capital City Commercial College,

229, Kansas Ave., Topeka, Kan., Jan 17/96
